I live in the North of Forest area of District 6 in San Jose, CA. This area is bounded by Forest Ave to the south, Westridge Ave to the west, Pruneridge Ave to the north, and both Jill Ave and Winchester Blvd. to the east. I am signing this to let the City of San Jose know that I do **NOT** support any traffic signal modifications at the Winchester Blvd. and northern Forest Ave. intersection. I did not have the opportunity to express my views or concerns on this proposed modification to my neighborhood. The City of San Jose Department of Public Works stated in the Santa Clara Gardens EIR that it did not support any modifications to that intersection. I am concerned that the proposed modifications could result in the following (there may be others not known at this time):

- 1. Reduced access to my neighborhood
- 2. Reduced value of my home
- 3. Reduced quality of life
- 4. Daily inconveniences and problems with the neighborhood
- 5. Increased cut-through traffic

I cannot make the meeting on July 24, 2008 but wanted to let you know I support Kirk Vartan in challenging the proposed intersection modifications and will continue to do so in the future.
